PROFILE

Enthusiastic web development student with a solid foundation in HTML, CSS, JavaScript, and TypeScript, currently advancing my skills in React and Next.js. Passionate about building innovative digital solutions and eager to explore generative AI to enhance my development capabilities. Dedicated to continuous learning and excited to contribute to projects that leverage the latest technologies.
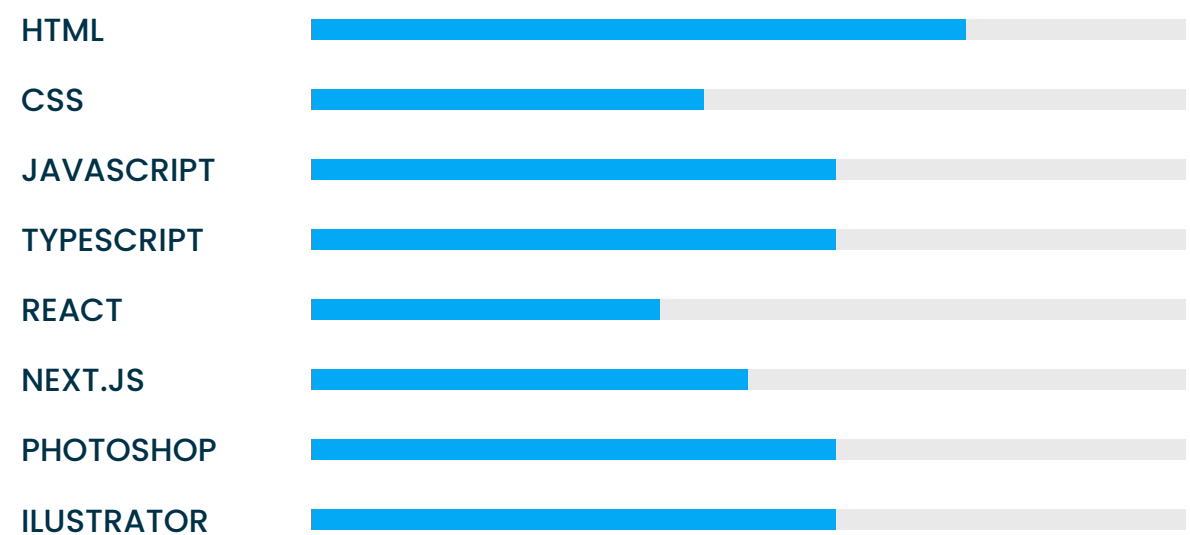

EXPERINCE

Web Development Projects

Self-directed Projects | Ongoing

- Developed multiple web applications using HTML, CSS, and JavaScript as part of my web development course, focusing on responsive design and user experience.

- Currently learning React and Next.js and implementing them in projects to build modern and efficient single-page applications (SPAs).

- Created a basic portfolio website showcasing my skills and projects, with an emphasis on clean design and interactivity.
